In this module we will explore the beauty found in unassuming, domestic interior spaces.

From Kitchen cupboards, to stairways and attics, we will ask you to 're-look' at the space around you.

Lighting and atmosphere are the focuses for this module, and so we will consider these elements in relation to colour and tone, while also exploring image format and composition.

This course will take you from making small scale sketches, to tonal drawings, understanding and mixing colour all the way through to making a final painting.
